LEDGER

MAYSVILLE, KENTUCKY, THURSDAY, AUGUST 6, 1914.

ONE COPY—ONE CENT.

That'll Be About All of That.
The fat man leans against the house.
And thus it can be seen.
He's fat because he eats too much,
And that's what makes him lean.
—Luke McLuke.

I know a loan shark, O, he's mean;
He is a sleek old rat;
On every one he has lien,
And that's what makes him fat.
—New York Mail.

SHADOW OVER WHITE HOUSE

Wife of President Woodrow Wilson at Point of Death from Bright's Disease.

Washington, August 5.—Mrs. Woodrow Wilson, wife of the President of the United States, lies at the point of death tonight.

Four months of almost unbroken illness, a complication of nervous ailments and Bright's disease, have sapped the vitality of the first lady of the land. The end is regarded as a matter of days, perhaps hours. Her three daughters are at her bedside.

CHARLES NEWDIGATE

Aged Citizen of Maysville Passes Away at His Home in Sixth Street.

Mr. Charles Newdigate a well known resident of this city, died at his home in East Sixth street yesterday afternoon of a complication of diseases, aged 68 years.

He is survived by his wife, Mrs. Mary Newdigate and other relatives.

Funeral services this afternoon at 1 o'clock at the graveside in the Maysville Cemetery, Rector d. H. Field & of the Episcopal Church having charge.

BURIED AT WASHINGTON.

The remains of Thomas McNally were brought here from Portsmouth, Ohio, this morning and interred at Washington.

Mr. James A. Wallace has accepted the agency for the Boston Insurance Co. He will be pleased to have his friends call upon him at No. 204 Market street or Harry L. Walsh's office on Court street, when in need of insurance. 50¢

Mr. and Mrs. Arthur Pope of West Third street are rejoicing over the arrival of a fine nine pound daughter.

The drought has again played havoc with the crops and garden truck.

BUGGIES, RUNABOUTS, DRIVING WAGONS

GEISEL & CONRAD

Field Marshal Kitchener has been appointed Secretary of State for War in the British Cabinet and will have under his direction the military campaign against Germany. The French troops have joined the Belgians in opposing the progress of Germany through Belgium, and it is reported that possibly Great Britain may send troops also.

MAYSVILLE, KY.

HATS OFF TO DOVER
School District—95 Majority for the School Tax.

(Dover News.)

The School election Saturday afternoon determined whether or not a tax of 35 cents on the hundred dollars should be levied in Dover district for the purpose of repairing and putting in sanitary condition the school building and grounds, and to elect a trustee, created more interest than the double-barreled primary giving an all-day performance at the town hall.

The hundred and twenty-one votes were polled—108 for and 13 against the tax, which was a decided victory for better schools and put Dover school district on record as a progressive and up-to-date community.

For the first time the women took advantage of their right to vote in school elections and marched to the polls by the dozen, and only one of them voted against the tax.

The people seemed to realize that a failure to keep up the school building would be nothing short of a calamity to this community, and rallied to the support of the cause with the result above stated.

The election for School Trustee for this District resulted in electing G. T. Fox.

DR. ARTHUR C. ADLER GOES TO THE FRONT.

Among the patriotic sons of the "Motherland," Germany, who are responding to the call to the "colors" is Dr. Arthur C. Adler, the accomplished pharmacist who has been in the Williams Drug Store in this city for the past year. Dr. Adler who was born in Aix la Chapelle, France, is a member of a distinguished German family of noble birth, his mother being a countess of wealth and culture. Dr. Adler was long a resident of Berlin, was personally known to Emperor William, was an officer in the German army and an attaché of the German Embassy at Washington City.

The Doctor has gone to New York and will go to Germany if he can get a boat which is hardly likely.

He formerly resided in Ripley.

LATER—Dr. Adler reached Cincinnati and was told by the German consul that he could not get passage from New York.

Hence the genial doctor is back in Maysville.

Misses Anna Belle Hall and Mary Watson Hall, of Maysville, visited Mrs. Jennie Huff and Mrs. Elizabeth McDaniel over Sunday.—Nicholas Attwade.

This is the last day for discount for August 1st gas bills.

HORRORS OF WAR

Begin With Slaughter of Thousands on Land and Sea

Germany Fights For Life Corralled By Russia, France and England

LATEST WAR BULLETINS

German—Cruisers Breslau and Goeben and gunboat Panthur reported captured.

Portland, Me.—Reports heavy fire off her coast.

Seventeen Alsatians shot by Germans trying to cross into France.

British—Mine laying ship reported sunk by the German fleet.

German troops are reported to have entered Dutch and Swiss territory.

Russian warships have captured a number of German merchant vessels.

Reports of a naval engagement off the Scottish coast were untrue by the British government.

The German Cable was cut today between Europe and the Azores.

Announced the government would acquire foreign warships under construction in Great Britain.

King George called for volunteers for the army.

The British public showed some anxiety about food supplies, which brought reassuring statements from the government. A scheme of control is to be introduced to regulate prices.

England—Has notified Germany that a "state of war" exists between the two countries. English ambassador to Germany asked for passports.

Germany—Refused to accede to English demand that Germany respect Belgian neutrality. Diplomatic relations have been formally severed between Germany and France and Germany and Russia and a state of war declared between the countries.

France—Has declared war against Germany.

Russia—Has declared war against Germany and Austria-Hungary.

Belgium—State of war exists between Belgium and Germany.

Austria-Hungary—Declared war against Serbia.

Italy—A member of the Triple Alliance.

Turkey—Has declared neutrality.

Japan—Has declared that she will assist England if the latter is attacked in the Far East.

(Continued on fourth page.)

The President of the United States has proffered his services as mediator to the European nations at war.

Mobs Attack the Embassies.

The German Ambassador will leave England Thursday by disputed boat, Bath at St. Petersburg and Berlin the German and Russian embassies reportedly have been attacked by mobs. The capture of a number of German ships by British fleets is reported and the British cruiser Amphion has sunk the Hamburg-American steamer, Koenigen Luise, recently converted into a mine layer.

Russian frontier patrols have penetrated ten miles into Germany. Travellers returned from the North Sea bring word that no hostile warships are to be seen.

The port of Southampton has been closed to merchants. The American liner, St. Louis, has been ordered to Liverpool.

"Menaces Western Civilization"

Tokio, August 5.—The Japanese premier, Count Okuma, in an interview to day, expressed his regret that the United States had not been able to mediate in the European conflict, which, if it continues, he said, would menace Western civilization. Japan, he continued, would have been happy to join the United States in mediation, but her possible participation in the war as an ally of Great Britain made her an interested party. The premier said that Japan, if she were compelled reluctantly to intervene, would protect the British colonies, but in no circumstances would she send a fleet or army to Europe.

To Fight High Prices.

London, August 5.—The authorities are taking all possible steps to allay public anxiety in regard to food supplies and prevent unjustifyable attempts to raise prices. The home office today issued an official statement to the effect that in addition to the four months' supply of wheat actually in the country or being harvested, there were large consignments of wheat now on the way here, much of which was already near British shores.

GERMAN EMBASSY AT ST. PETERSBURG DESTROYED BY MOB

Washington, August 5.—The German Embassy at St. Petersburg and the Russian Embassy at Berlin, are reported destroyed by mobs.

MARRIAGES

Mr. Fisher Elkin, aged 23, Virginia, and Miss Emma Fyffe, aged 19, Maysville, were married at the parsonage of the First M. E. Church South yesterday by Rev. M. S. Clark.

Mr. J. B. Allison, aged 31, farmer and Miss Lillian McDonald, aged 23, both of Mason County were granted license to get married.

Mr. Orma H. McKee, aged 25, farmer and Miss Bertha Cox, aged 17, both of Mason County, were married by Rev. Charles Dugan.

MR. A. LEWIS MERZ RECOVERING FROM INJURIES.

Mr. A. Lewis Merz, one of the general members of Merz Bros. Bee Hive store in Maysville, who met with painful but not serious injuries last Friday after noon, when a street car jumped the track in East Second street, is now able to be up and about and may be down street to the store this afternoon. His main hurt was a wrenching back, which is mending nicely.

All rejoice over his recovery as he is one of the leading merchants of Maysville and Philadelphia.

Mrs. Addie Hill, the other victim of the accident is also reported improving from her injuries.

FIRE LOSS IS ALL LOSS.

"Any insurance?" is the first question when a store or dwelling house or barn is burned. "Yes, loss fully covered," is a reply that makes the average man feel comfortably assured. "The company" stands in his mind for unlimited money and unquestionable solvency. Perhaps the draft that pays the loss comes direct from Hartford, Newark or Philadelphia; perhaps the company is an English or German one. The new buildings that rise on the blackened site are better than the old. The fire appears to have been clear gain.

But it was not: it was all loss. And it was not the company that lost, either. The loss did not fall on people of foreign lands, though the company's offices were in Liverpool or Hamburg. If the fire was in Missouri, the loss was borne by Missouri. Every building that burns in Missouri burns at the expense of the Missourians.

Every fire insurance company must charge enough to pay all losses and yield money to run the company besides. If it charges less it will fail and go out of business. It is not a matter of choice; it is a matter of necessity. Now the rates are made State by State. Missouri rates are made in the light of Missouri losses, of which careful records have been kept for many years. Sometimes the rates for a particular State are for a time, too high or too low; but it is in the very nature of things that such a state of affairs cannot last. In the long run each State carries its own loss.

Therefore, when a Missouri building burns, though the draft that pays the loss may come from London or Hamburg, New York or Newark, that is only sending back money previously collected from Missourians by companies doing business in those far-off cities. The Missourian who has a loss has it not at the expense of a foreign corporation, but at the expense of his neighbor or fellow citizens.

For fire loss is all loss. This is not universally true in the business world. We speak of profit and loss in many things that are mere matters of distribution. Jones gets less profit because Smith gets more.

"What's one man's loss is another's gain," says the proverb. But this is not true in insurance. Insurance loss is all loss. No man made anything by the burning of Jones' barn or Smith's store. That much property simply went forever out of existence and nothing came back to anybody, and an insurance corporation collected from the friends and fellow-citizens of the man whose property burned just money enough so that instead of one man becoming a great deal poorer, 5,000 men become each just a little poorer.

That is all. Fire loss is nothing but loss. And every building that burns in Missouri burns at the expense of Missourians.—St. Louis Republic.

TWO PECULIAR COURT DECISIONS.

Two decisions of the United States Supreme Court, the upholding the employers' liability law of the United States in so far as applies to the territories, the other sustaining the ten-hour woman's labor law of Massachusetts, indicate a decidedly new trend in the decisions of the highest tribunal. It would have been easy for the court to rule against the Federal liability on the same grounds that resulted in holding it invalid in cases affecting the States, while there was at least some precedent for a decision adverse to the Massachusetts enactment. The personnel of the court has changed very greatly in recent years, and the atmosphere surrounding it has changed with the personnel. The court is composed of human beings and has its alterations of sentiment like every other human institution. This has been demonstrated on more than one important occasion in the past.—New York Journal of Commerce.

Should think that by this time Mrs. Pankhurst would have "Holloway jail" engraved on her visiting cards.—Philadelphia Telegraph.

THE HIGH COST OF GOOD LIVING.

When the high cost of living is under debate it will be well to remember that it is in part the cost of good living. The people, or public officials on their behalf, are insisting on high food standards and naturally higher prices are the result.

A report of the health department of this city shows that 13,000,000 pounds of unwholesome food were confiscated and destroyed during 1913. No one will dispute the propriety of the health officers' action. Bad food ought not to be sold in New York. But it may as well be understood that the people paid for the 13,000,000 pounds just the same.

The shippers or purveyors from whom the seizures were made, and who were the losers in the first instance, we may be sure were not out in the long run. The value of the destroyed material was simply spread out thin over the better food that was sold; the consumers paid the price and the dealers' balance sheets were none the worse on December 31.

One consolation remains to the public. It did not buy doctors' and undertakers' bills along with its fruit, milk and meat.

FACTS ABOUT IMMIGRATION.

From 1864 to 1882, 87 per cent. of the 6,000,000 immigrants were received from Northwestern Europe, mainly Germany, Great Britain and Ireland.

Since 1882, 87 per cent. of the whole were from Southern and Eastern Europe.

Of the earlier immigration 85 per cent. became naturalized citizens; of the later, 30 per cent.

In 1913 a new high-water mark—1,387,318 immigrants—was established, the larger part being Italians, Poles, Russian Hebrews and Austro-Hungarians.

Distribution in 1913—net immigration (arrivals less departures):

To the South, hungry for laborers, 22,024.

To the West (Mississippi River to, but not including, Pacific Slope), 53,618.

To six States, already overcrowded (New York, Massachusetts, Pennsylvania, New Jersey, Ohio and Illinois), 814,641.—Leslie's Weekly.

GIVE US THE WHOLE STORY.

Senator Simmons glibly calls attention to the fact that while the increase of imports under the Democratic Free-Trade Tariff has amounted to \$81,000,000, yet from 1912 to 1913, under Protection, they increased by \$160,000,000. But he does not state that from 1912 to 1913 our exports increased by \$260,000,000, while under the present law during the past few months our exports have actually decreased. Give us all the facts, Senator.—American Economist.

The Progressives of Indiana were urged to unite with the Republicans in the coming campaign at a meeting of over 100 Bull Moose leaders in Indianapolis.

THE DAILY NOVELLETTE.

Her Hero.

He loved her little.

He loved her much;

He called her dear,

Sweet, love and such,

"I would do anything for you—within reason," he cried. "I would go through water for you."

"But not fire!" she retorted.

"No," he said doggedly, "no fire. I can't lie to you."

"The man I marry must be superlatively brave," she insisted.

"I'm sorry—you have your good points, but you are a comparative coward. Would you stick your head in a lion's mouth for me?"

"No," he said. "That would be foolish."

"Would you jump from the steeple for my sake?"

"I'd jump, but not!" he cried agonized. "I can't lie to you. I would go through water for you—that's all I can think of just now. I am going now, never to return!"

"Good-bye," she said promptly, but just a shade sadly.

He put on his 1911 model French-crown straw hat and started.

"Stop!" she cried. "Any man that would walk down a public thoroughfare with a hat like that is brave enough for me!"

The world stood still as he caught her to him.—Louisville Times.

The finding of four more plague-infected rats at New Orleans was announced by Dr. W. C. Rucker, Federal Assistant Surgeon General.

WEAK KIDNEYS

MAKE WEAK BODIES

Kidney Diseases Cause Many Aches and Ills of Maysville People.

As one weak link weakens a chain, so may weak kidneys weaken the whole body and hasten the final breaking-down.

Overswork, strains, colds and other causes injure the kidneys, and generally when their activity is lessened the whole body suffers.

Aches and pains and languor and urinary ills frequently come, and there is an ever-increasing tendency towards dropsy, gravel or fatal Bright's disease. When the kidneys fail there is no real help for the sufferer except kidney help.

Doan's Kidney Pills act directly on the kidneys. Maysville testimony is proof of their effectiveness.

Mrs. Atone McClellan, 541 W. Second St., Maysville, Ky., says: "I was often dizzy and nervous and my head ached. I had pain in my back and my kidneys were weak. Doan's Kidney Pills stopped the complaint immediately and made me well and strong."

Mrs. McClellan is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills.

If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mrs. McClellan had—the remedy backed by home testimony, 50¢ a bottle, Foster-Milburn Co., Buffalo, N. Y. "When Your Back is Lane—Remember the Name."

HOW FAR CAN YOU SEE?

The German army has been conducting some interesting experiments with a view to finding out how far off it is possible for one soldier to recognize another.

Soldiers with good eyesight can distinguish a person seen once before when 80 feet distant, an acquaintance 300 feet distant and an intimate friend or relative 500 feet distant.

An expert rifleman can distinguish any decided movement on the part of a man's body when the man is 300 feet away from him.

At 150 feet a man appears as a spot on the landscape and, indeed, he moves, or his dress contrasts with the background, cannot then be distinguished.

Soldiers, hunters and farmers, however, can usually see twice as far as other people, owing to their training in distinguishing distant objects.

It doesn't take much to constitute a suspicious circumstance in Arkansas. A Little Rock negro has been arrested for having a dollar bill in his possession.

For our part we don't see where the human family gained anything by doing away with witches and introducing fell collectors.

PANAMA TODAY AND TOMORROW, SOME PICTURES AND PROPHECIES

Vivid Descriptions of Life in the Canal Zone By Dr. Earl Taylor—Only a Disastrous Earthquake Could Delay Opening of Great Canal on Schedule Time—Quaint Indian Village Where Natives Navigate in Solid Mahogany Canoes—"Vegetable Ivory" From Which Collar Buttons Are Made—A Land of Beauty and Great Promise—An Unaccomplished Task and a Spiritual Emergency—The Bright Side.

Dr. S. Earl Taylor of the Methodist Episcopal church gives the following due and enchanting description of Panama, in which he tells of an unaccomplished task and a spiritual emergency.

"I was agreeably surprised during my entire stay at Panama. Before leaving America I had read much about the Gatun lock, and about the Culebra cut. In fact, I was led to think that the canal zone consisted primarily of locks and cuts, and that the whole thing would be rather dreary to a man not particularly interested in machinery or engineering feats.

"But to my great delight, I found the canal region full of human interest and also vastly attractive on account of its tropical scenic beauty. Few of us I think, have fully realized that the canal zone lies well within the tropics. This means rich and varied foliage, and unusual forms of flora and fauna. Bananas, pineapples and coconuts grow in their natural state in this region. Rare butterflies, beetles and bugs of various sorts, some of them rich in coloring, are to be seen. And monkeys and curious wild turkeys are found in the forests.

Locks and Dams.

"The whole canal project has largely resolved itself into damming up the mouths of two rivers, the one flowing in the direction of the Atlantic ocean and the other in the direction of the Pacific. By damming up these rivers, naturally two lakes were formed, the one on the Atlantic side being very large, and the one on the Pacific side much smaller.

"After the dams were built, it became necessary, of course, to construct locks so as to let down the ships from the lakes to the sea level. Then it remained to construct a regular sea-level canal out to the ocean. The Culebra cut was required simply for the reason that between the lakes there was a ridge of mountains which had to be cut through, so that ships could pass from one lake into the other.

"The Americans are not setting a very worthy example from the stand point of things spiritual. The canal commission has repressed rather than encouraged aggressive Christian work.

For instance, in the Young Men's Christian association popular throughout the canal zone and favored by the commission, a splendid work of the club house type is being done. The associations, however, are definitely informed that they are to cut out the religious side of the work just as largely as possible.

"Church attendance on the part of the officials of the commission and the rank and file of our American canal workers is practically nil, and Sabbath observance, in the sense that we know it in America, is conspicuous by its absence.

Solid Mahogany Canoes.

"There are many Indian villagers along the coast and around the shores of the lake. It is most interesting to see them going to and from the trading places in their native dug out canoes. These boats are very large, sometimes seven feet wide and thirty feet long, and are cut out of solid mahogany. The natives are skilled boatmen, and are able to navigate waters that would be impossible to the white man in his modern boat. Coming down to the trading places, the natives bring their boats filled with hammocks, canements, yams and other articles of trade.

"The political, physical and sanitary aspects of the Panama canal problem have now been largely solved. The unaccomplished task is the spiritual one. I have no hesitation in saying that this impressed me as being the most difficult and urgent of all.

The Unaccomplished Task

"Panama is peopled by one of the strangest mixtures of races to be found anywhere in the world. The only place at all comparable with it that I have ever seen is the city of Singapore. In the latter city, while almost every race under heaven is represented, the nationalities remain comparatively separate and distinct. But in Panama they are all merged. Aside from Americans and Europeans, there are hardly any people of pure blood on the Isthmus. Chinese, colored people from the West Indies, Panamanians and Spaniards have all mingled. There are also many evidences I regret to say, that Anglo-Saxon blood is being poured into this turbulent strain.

"The Americans are not setting a very worthy example from the stand point of things spiritual. The canal commission has repressed rather than encouraged aggressive Christian work.

For instance, in the Young Men's Christian association popular throughout the canal zone and favored by the commission, a splendid work of the club house type is being done. The associations, however, are definitely informed that they are to cut out the religious side of the work just as largely as possible.

"Church attendance on the part of the officials of the commission and the rank and file of our American canal workers is practically nil, and Sabbath observance, in the sense that we know it in America, is conspicuous by its absence.

A Spiritual Emergency

"To meet this spiritual emergency we have the merest handful of men and women who are working against the odds. I carried away the very distinct impression that our work is poorly equipped and inadequately manned, when we consider the tasks before us. If the American people are to grapple with the spiritual problem in the canal zone, it must be handled in a much more adequate way.

"On the other hand, there are many signs of promise. Some of the finest young fellows I ever met are active in our Christian work. If we had a better and more accessible equipment, no doubt many more could be enlisted.

The Bright Side.

"The work among the Panamanians and West Indians has many encouraging features. While I was in the city of Panama a great revival was in progress at our mission. Twenty-five persons went forward to the altar the first night, and fifty persons the second night. Our little chapel, which Brother Thompson has built largely through personal effort and by the work of his own hands, without any funds from our board, is now taxed to the very limit in that seething section of the city, and if he had a sufficient number of workers, I believe that thousands could be brought to Christ within the next three or four years, and a great church built.

"Further up the isthmus, at a place called Davis, they say there is a very fine opening for missionary activities. They would like to send a lately converted priest up there and begin work among the pure Panamanians. This particular pig, however, was very tame.

"In the yard also was a quantity of vegetable ivory nuts from which collar-buttons and things of that sort are made. These nuts are round and very hard and when opened resemble ivory. They sell for \$120 a ton in America, but the natives pick them up on the ground near this little village.

One gathers from a casual perusal of the newspapers that good advice comes to be John D. Rockefeller's favorite benevolence.

A boy should have both a father and a mother. No woman can understand why a boy wants a shotgun.

It is, in a manner of speaking the bum sport who tries to save defeat with an alibi.

WHO CAN DOUNT SWAMP ROOT
TESTIMONY OF HONEST CITIZENS

Some time ago I began the use of your Swamp Root with the most remarkable results. For years I was almost a wreck and was a great sufferer. The doctors who treated me made me believe that my great sufferings were due to female trouble. I was so bad at times I would faint away and had sinking spells. Finally a new doctor was called in and he said that I had kidney trouble and gave me medicine, of which I took several bottles. I obtained some relief from this but I was getting weaker all the time; I could not sleep and suffered so much pain that my husband and children had to lift me in and out of bed. After this time two friends sent me word to try Swamp Root, which I did, and I am glad to state that the first dose gave me great relief. After taking the third dose I was helped into bed and slept half of the night.

I took several bottles of Swamp Root and I feel that I owe my life to this wonderful remedy. The two family doctors said that I could not live three months. I would have to be helped in and out of bed ten to twenty times every night. After taking Dr. Kilmer's Swamp Root for two days I was sleeping soundly.

MRS. D. E. HILEMAN, Tunnelton, W. Va.

Personally appeared before me, this 11th of September, 1909, Mrs. D. E. Hileman, who subscribed the above statement, and made oath that the same is true in substance and in fact,

JOSEPH A. MILLER, Notary Public

Letter to Dr. Kilmer & Co., Binghamton, N. Y.

Prove What Swamp-Root Will Do For You.

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure to mention The Maysville Daily Public Ledger. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

The Americans are not setting a very worthy example from the stand point of things spiritual. The canal commission has repressed rather than encouraged aggressive Christian work.

For instance, in the Young Men's Christian association popular throughout the canal zone and favored by the commission, a splendid work of the club house type is being done. The associations, however, are definitely informed that they are to cut out the religious side of the work just as largely as possible.

When a woman is secretly proud of her son she says to him: "You ought to be ashamed of yourself."

Another good thing that a girl learns at a boarding house is that father's table manners won't do.

Give a woman \$12 a week and she will spend \$44. Give her \$25 a week and she will spend \$35.

GEO. REWARD, 810.

The readers of this paper will be pleased to note that the latest news concerning the cure of the disease known as "Haut's Cancer" has been received from Dr. George E. Haut, of New York. Dr. Haut's Cancer Cure is the only one known to the medical fraternity as being a constitutional disease. Holt's Cancer is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for anyone that falls ill to take it.

PELLAGRA SPREADING

Says Secretary McCormack of the State Board of Health and Conference

Is To Be Held.

MacLaren, authority on war, asserts that the loss of life in battle since authentic history began amounts to 1,000,000,000, or the entire population of the globe for the last 300 years. From 1688 until 1815 the Old World saw 65 years of solid warfare, which cost the people \$5,945,000,000, not counting n debt of \$4,000,000,000.

Reports from health officers in widely scattered sections of the State indicate a large increase in the number of cases of Pellegra. The State Board of Health at the suggestion of a large number of local health officials, has called a second conference for the study of Pellegra, together with a Conference of County and City Health Officers, at Pineville, Ky., for August 18, 19 and 20. During this conference the laws enacted at the recent session of the Legislature for prevention of blindness will also be discussed and steps will be taken looking to making them effective. Hundreds of physicians from all parts of the South will be present at the meeting. A. T. McCORMACK, Sec.

HOLDER OF WINNING TICKET DROPS DEAD.

Lexington, Ky., August 4.—At the fair grounds here yesterday afternoon Carroll L. Brunner, aged 45, of this city dropped dead. It developed he held a winning ticket on the two year old trotting race of \$1,000 which was won by Ufford, a few minutes before.

W. P. Harbeson and son, Will, came up from Maysville Wednesday night to attend the Chautauqua, the former to remain a day or so at his old home.

Miss Rose Harbeson has accepted the appointment of private secretary to Auditor Henry M. Bosworth at Frankfort,

to succeed Miss Nellie Howden and will assume her duties about September 1.

*** Mrs. Mary Quaintance returned to Maysville Monday morning.—Plumley Gazette.

* VALUABLE ZINC ORE FOUND.

Murion, Ky.—A rather remarkable vein of sulphide of zinc ore has made its appearance at Carrsville, Livingston county. From the Ohio river at a low tide a very clean-cut, high-grade sulphide of zinc is found.
